SUMMARY OF INTERVIEW

Applicants thank the Examiner for the opportunity to discuss the rejection of Claim 62 in telephonic interviews on September 27, 2004 and October 6, 2004. The Examiner and Andrew Merickel agreed that the cited art does not teach or suggest a step of individually isolating one of the recited peptides. Claim 62 is amended accordingly and the Examiner said that because he had extensively considered the art he would be willing to enter the amendment after Final.
